THE GRADUATE COLLEGE
URBANA, ILLINOIS

February 28, 1955

Professor Joshua Lederberg
Genetics Department
University of Wisconsin
Madison 6, Wisconsin

Dear Dr. Lederberg:

I appreciated your note of February 12, with its best wishes. Actually, I had nothing to do with the preparation of the News Letter from Yale, except to suggest that we should send one out from time to time to keep in touch with our alumni.

Naturally we are keenly interested in strengthening the Plant Science Department in every way possible. Accordingly, if you have any suggestions or advice, please feel perfectly free to write -- now or at any future date.

Incidentally, I shall not be moving to New Haven until July 1, 1955.

With personal greetings, I am

Cordially yours,

A handwritten signature in dark ink, appearing to read 'Oswald Tippo', with a stylized flourish at the end.
